EDITION 24_1 CONNECTED

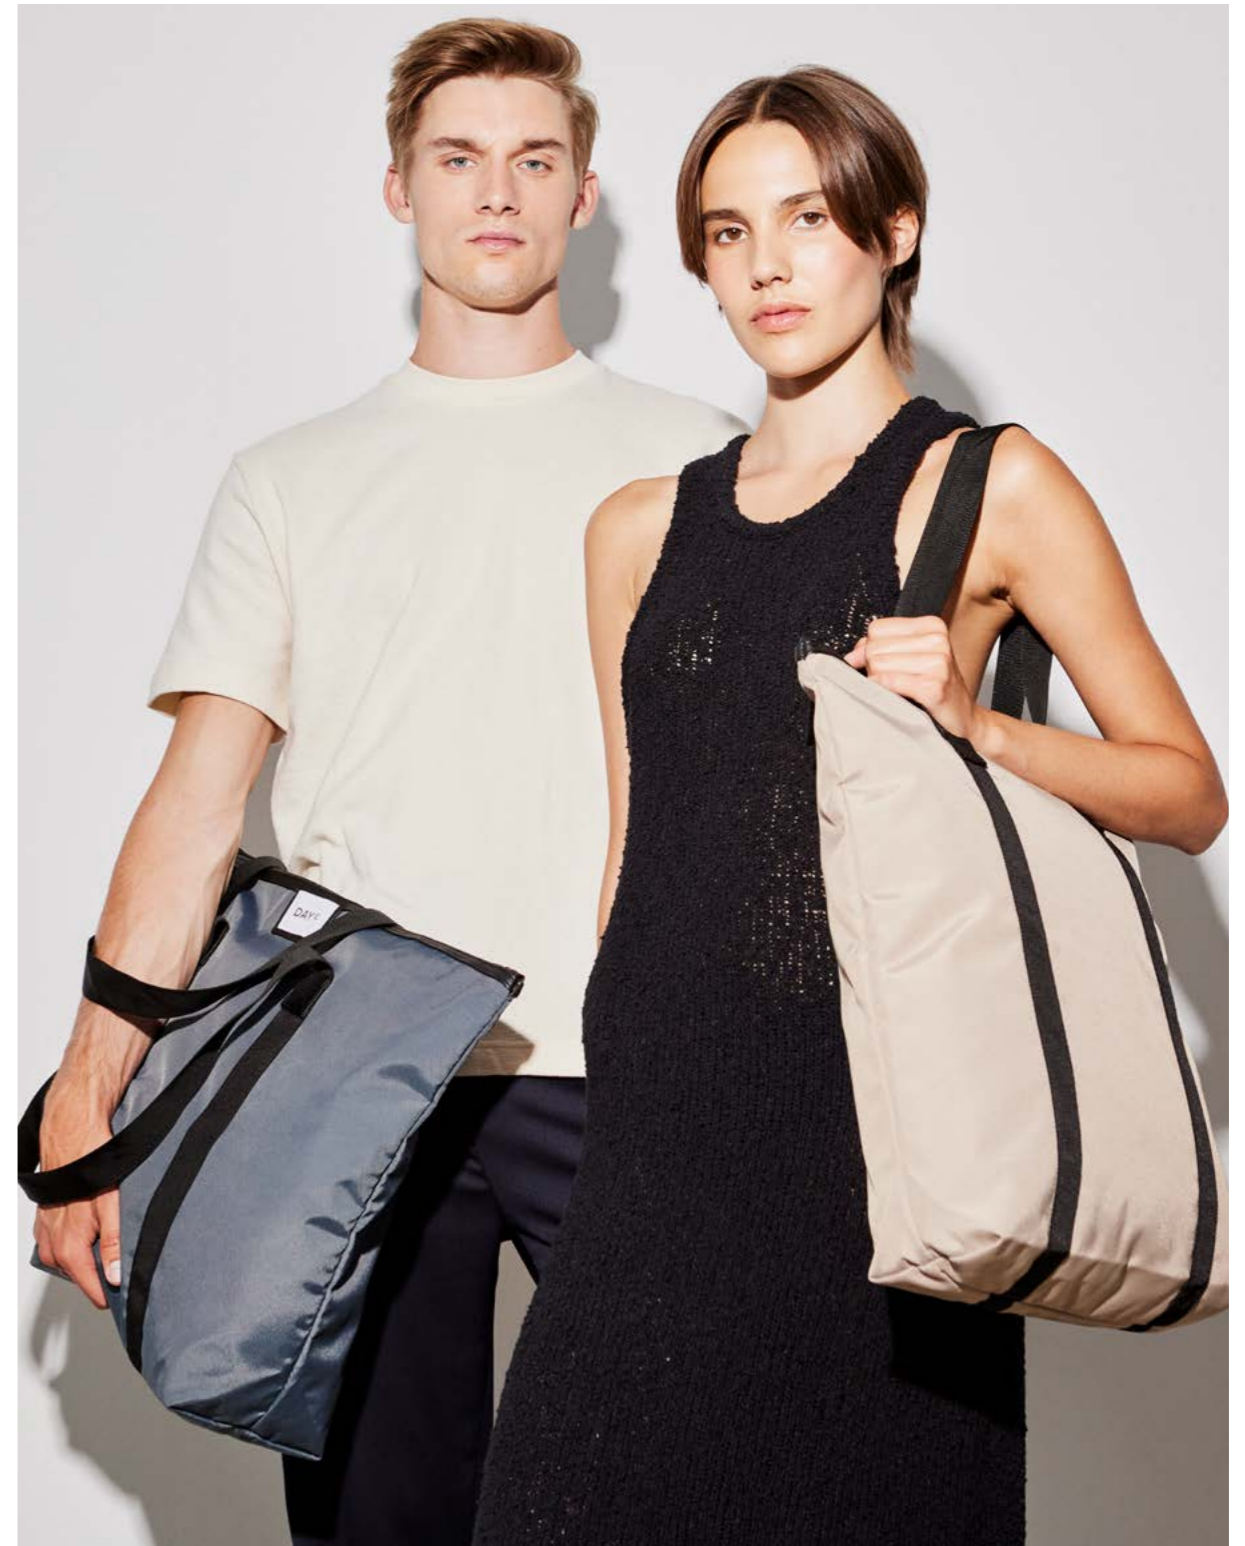

This season gives us hope and energy to carry out our plans and purpose for our life. We are connected. To the nature. To our surroundings.

We watch the coming of the spring. We witness the reemerging of the light and the unfolding of the small resilient sprout. How blessed we are to sense the wisdom of trees and the wise cycle of the seasons. Such a privilege and inspiration it is to be a spectator to nature unfolding spring in all its mightiness.

The colours of this collection are inspired by the colour shift happening in this early spring, from the dark tones of winter, to the transformation into blue skies and spring flowers.
